PROFILE SUMMARY

Results-driven Frontend Developer with 1+ year of hands-on experience building scalable and high-performance web applications using React.js and Next.js. Specialized in developing API-driven applications, creating responsive and user-centric UI, and optimizing performance for faster load times.

Proficient in JavaScript (ES6+), Tailwind CSS, and modern React ecosystem tools, with practical experience in integrating REST APIs, implementing efficient data fetching strategies, and ensuring cross-browser compatibility. Strong focus on writing clean, maintainable code and delivering production-ready solutions through effective collaboration with cross-functional teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS
Database: MongoDB Atlas, Mongoose
State & Data Management: React Query, Context API
Tools & Libraries: Axios, React Router, React Helmet, Framer Motion
Performance Optimization: Lazy Loading, Code Splitting, SEO Optimization
Developer Tools: Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

Front End Developer — EC Sale Pvt. Ltd. May 2025 – Feb 2026
Noida, India

- Developed and maintained the company website using React.js and Tailwind CSS, delivering a fully responsive UI across desktop, tablet, and mobile devices.
- Improved application performance by **30%** using optimization techniques like code splitting and efficient rendering.
- Integrated **5+ REST APIs** using Axios and React Query for real-time data handling and dynamic UI updates.
- Built reusable and scalable components with React Router, improving development efficiency and code maintainability.
- Implemented SEO best practices using React Helmet, enhancing search engine visibility and indexing.

KEY PROJECTS

DevNest Dashboard | Next.js, Node.js, Express.js, MongoDB, JWT **2026**

- Built a full stack dashboard with JWT authentication, login/register, and protected routes.
- Implemented REST APIs, secure session handling, and frontend/backend validation.
- Developed AI assistant, notes management, profile system, and mini games.

JSONPlaceholder API Explorer | Next.js, React Query, Axios, Tailwind CSS **2026**

- Built an API explorer integrating posts, users, albums, comments, photos, and todos.
- Implemented React Query for efficient data fetching, caching, and server state management.
- Optimized API architecture and performance using Axios and Next.js.

EC Sale Pvt. Ltd. – Official Website | React.js, Tailwind CSS, Framer Motion **2025**

- Developed a responsive corporate website using React.js and Tailwind CSS.
- Implemented SEO optimization and smooth UI animations for better engagement.

Streaming Platform Website | React.js, REST API, React Router **2025**

- Built a streaming platform with dynamic content rendering using REST APIs.
- Implemented client-side routing and reusable scalable UI components.

Ducat India Clone | React.js, Tailwind CSS, Framer Motion **2025**

- Developed a responsive educational platform UI with modern animations.
- Followed reusable component architecture and optimized frontend performance.

CERTIFICATES
